

50T Rated Rod Table

ENGINEERED & READY FOR THE FIELD.

When it comes to well service equipment, performance and safety shouldn't be compromises — they should be standard. That's exactly what you get with RNE's 50-Ton Rated Rod Table — engineered for strength, built for reliability, and load tested to perform in the toughest oilfield environments.

Crafted from premium 4130 steel, this rod table isn't just tough — it's field-proven tough. Designed with a larger work surface and an integrated fluid drain, it promotes cleaner, safer tripping operations — reducing mess, minimizing risk, and maximizing uptime.

Key Features

- Load tested to 50 Tonnes
- Built-in rod stripper box with 3½" LP thread
- Durable 4130 construction
- Integrated fluid drain for spill-free performance
- Larger surface area for enhanced safety and efficiency
