

Rod Back Off Tool

Tough Tools. Smarter Solutions.

RNE's Rod Back Off Tool offers a safer, faster, and more cost-effective alternative to traditional rod tongs. Built with premium materials and tested to handle up to 8,000 ft/lbs of torque, it's ready for the toughest field conditions.

Designed to break polish rods 1-1/2" and under, it delivers the same power as tubing tongs—without the bulk or expense.

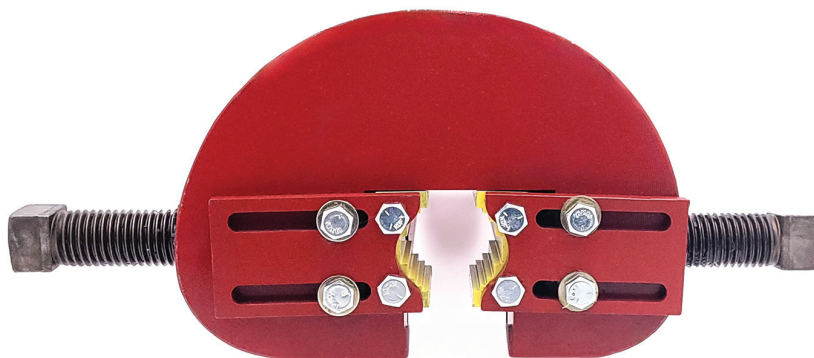

Key Features

- Rated for 8,000 ft/lbs torque
- Replaceable jaws and adjustment plates
- Breaks polish rods 1-1/2" or smaller
- Heavy-duty, field-proven construction
- Quick, safe, and easy to use
- Cost-effective alternative to traditional tongs
