

# URETHANE - SPECIALTY SERVICE

## Engineered for Demanding Applications

Urethane cone packing is a proven performer in harsh environments, built to withstand the challenges of heavy abrasive fluids. Its robust composition provides superior durability and reliability in the field.

### Key Features

- **Excellent Wax Removal**  
Effectively strips all wax by-products, making it ideal for wells prone to wax buildup.
- **Optimized for Heavy Fluids**  
Performs exceptionally well in mid to high viscosity applications where standard materials fall short.
- **Reliable Under Pump-Off Conditions**  
Maintains seal integrity and function when pump off is frequent, reducing downtime and maintenance.
- **Versatile Across Applications**  
A smart choice for artificial lift, well service, and other demanding operations where fluid dynamics vary.

Note: Not recommended for high water cut environments.

<b>Temp</b>	110°C (230°F)
<b>Max Pressure</b>	5,000 PSI
<b>H2S</b>	10%
<b>CO2</b>	8%
<b>Abrasive Resitance</b>	Heavy to Extreme
