

50 TON RATED ROD TABLE

ENGINEERED CERTIFIED

RNE Well Service Equipment looks to provide functional improvements while keeping safety in mind. Our “50 TON RATED” Rod Table does just that. Designed and manufactured for strength from 4130, it can handle all well service conditions. The RNE Rod Table comes equipped with a built in Rod stripper box / 3 ½” LP thread. All Tables have a built in fluid drain, and larger work surface than conventional tables, allowing for cleaner safer tripping operations. Contact CCP today for more information.
