

Scraper Cups & Discs

Scraper Cups & Mandrel Pig Components Engineered for Superior Performance

Maximize pipeline cleaning efficiency with our high-performance Scraper Cups, designed to deliver exceptional sealing, extended service life, and more effective debris removal. Featuring a deep, squared-off edge, these cups create a tighter seal against the pipe wall, resulting in improved scraping action and enhanced cleaning performance over longer distances.

Manufactured in a variety of durometers to suit your application requirements, with 80 durometer being the most commonly specified, our Scraper Cups provide the durability and flexibility needed for demanding pipeline operations. The arbor hole can be custom-sized or patterned to fit virtually any steel or urethane pig body, ensuring seamless integration with your existing equipment.

Size	Cup O.D.
2"	2-1/8"
3"	3-3/8"
4"	4-3/8"
6"	6-3/8" & 6-1/2"
8"	8-1/2"
10"	10-5/8"
12"	12-5/8"

Size	O.D.	I.D.	Height	Thickness	Bottom
2"	2-1/8"	1-5/8"	3/4"	1/8"	1-3/4"
3"	3-3/8"	2-3/4"	1-1/4"	1/4"	2-5/8"
4"	4-3/8"	3-5/8"	1-1/2"	3/8"	3-3/8"
6"	6-1/2"	5-3/8"	2-1/8"	5/8"	5"
8"	8-1/2"	7-1/4"	2-1/2"	1/4"	6-3/8"
10"	10-1/8"	9-1/8"	3"	1/4"	8"
12"	12-5/8"	10-3/4"	3-1/2"	1/4"	9-1/2"
